

VYACC-DP

PVC / TPO Decor Profile

DESCRIPTION

VYACC-DP is a prefabricated decorative profile manufactured from high-performance PVC or TPO material, designed to enhance the visual appearance of roofing and waterproofing systems.

It is compatible with PVC and TPO membranes and can be thermally welded or mechanically fixed to create architectural lines, simulate standing seams, or provide aesthetic detailing on flat or low-slope roofs.

BENEFITS

- Enhances roof aesthetics with clean architectural lines
- Compatible with PVC and TPO membrane systems
- Excellent weldability for secure and seamless integration
- Durable and UV-resistant material
- Flexible and easy to install
- Available in various colors
- Long service life with consistent appearance

APPLICATIONS

- Decorative detailing for PVC roofing systems
- Decorative detailing for TPO roofing systems
- Simulation of standing seam metal roof appearance
- Architectural façade or parapet detailing
- Enhancement of visible roofing areas

INSTALLATION

- Ensure the substrate membrane is clean, dry, and properly installed
- Position the decor profile according to design layout
- Fix the profile using hot air welding (PVC/TPO compatible welding equipment)
- Maintain consistent spacing and alignment for visual uniformity
- Perform welding seam inspection to ensure proper bonding
- Installation should be carried out by trained professionals

STORAGE & SHELF LIFE

- Store in a dry, clean, and ventilated environment
- Avoid exposure to direct sunlight before installation
- Keep away from sharp objects and mechanical damage
- Shelf life: 24 months under proper storage conditions

DIMENSIONS & PACKAGING

Parameter	Value
Materials	PVC / TPO
Thickness	2.5 mm
Width	30 mm
Height	26 mm
Length	3 m
Color	Black/White/Gray (Customized)
